

Hackensack, Nutley & Ramsey Library Campuses

Mission Statement

The Eastwick College Libraries strive to support the mission of Eastwick College as student-centered institutions which embrace academic excellence and meet the learning needs of students. The libraries provide access to a vast collection of materials in a variety of print, audio-visual, and electronic formats that support the curriculum of each discipline, college programs, and common interests. In addition, the libraries provide individual and group instruction in the identification, use, and evaluation of information resources to enhance teaching, research, and lifelong learning.

As a full partner in the teaching/learning process of the college community, the libraries work with students and faculty to develop critical thinking and enduring learning skills.

In support of this mission, the libraries will:

- Acquire, produce, organize, and provide access to a collection of high-quality resources which address the information needs of the college.
- Provide instruction and services to students, faculty, staff and the greater community in the effective use of learning resources.
- Seek and maintain partnerships that increase access to information and cultivate support for library collections and services.
- Provide an easily accessible, user-friendly, and safe environment that fosters teaching and learning for all library users.
- Contribute to the intellectual, cultural, and recreational pursuits of the College beyond the classroom.
- Evaluate on a continuing basis all library services and activities.
